Topic- **Rounding Numbers**

1- Rounding to the nearest 10.

To round a number to the nearest 10, look at the digit at the ones place.

↳ If the digit at the ones place is less than 5, round down to the nearest 10

Ex→ 2③ → To find round number we'will see at ones place.
here 3 is at the ones place which is less than 5.
So we round down to nearest a tens.

Nearest ~~10~~ round down of 23 is 20.

↳ If the digit at the ones place is 5 or more than 5, round up to the nearest 10.
