

class
set-2 3rd, 4th and 5th
Math.

Date 20-08-20
Page 02

In 27 we will see at ones place. At ones place $\rightarrow 7$

7 is more than 5.

So we round up to nearest 10

Nearest 10 round up of 27 is 30.

At ones place $\rightarrow$

Note $\rightarrow$ Less than 5 $\rightarrow$ go downward ($\downarrow$)
More than 5 $\rightarrow$ go upward ($\uparrow$)

How

For class 3rd $\rightarrow$ (concept check
1(b) Q No-4 (Part A) on Page 20

For class 4th $\rightarrow$ (concept check
1(c) Q No-1 on page no-20

For class 5th $\rightarrow$ (concept check
1(e) Q(1) on page no-19.
